### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The empty boxes in figures 1 and 2 have been textually labeled as shown in red in the attached copy of said figures.

2. The following is an examiner's statement of reasons for allowance: One of the limitations not taught by the prior art is a voltage converter control unit coupled between a DC-voltage bus and an energy storing buffer for selectively controlling energy flows between the DC-voltage bus and the storing buffer to either transmit energy from the DC bus into the buffer or transmit energy from the buffer into the DC-voltage bus, wherein the direction of flow depends on variations in DC-voltage and/or current at the DC-voltage bus and at the energy buffer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2837
